Payment Amount: £ 99.50 (female applicants)/£149.50 (male applicants) Annually

£ 9.25 (female applicants)/£13.90 (male applicants) Monthly

(Delete as appropriate)

Quoting Reference:

Date of first payment ____/____/____

And annually/ monthly thereafter. (Delete as appropriate)

Signed: _____

Dated: ____/____/____

The ProScreen service and Conditions of Membership

Payment of your annual membership fee entitles you to a comprehensive service with the following main features:

1. Access to our appointment making service under which a member of our staff will contact you each year and make all the arrangements for your annual test
2. An annual cervical smear or PSA blood test taken by a Doctor or qualified nurse at an approved medical centre. Female clients are entitled to insist on the smear being carried out by a woman, but on occasion this might involve a longer journey to the medical centre. The medical centres we use are located throughout the country, and we will use the centre most convenient for your home or work address. You should note that although we ensure that only suitably qualified medical personnel carry out the tests, they operate independently from ProScreen and are fully responsible for the professional medical standards involved in taking the smear.
3. The samples taken will be sent direct to our nominated Pathology Laboratory, who will be responsible for its examination by the method that, in our opinion, is the most accurate and reliable available.
4. Within ten working days of receipt of the sample at the laboratory we send one copy of the resulting report to you and one to your General Medical Practitioner (GP). If abnormalities are identified in your sample we will contact your GP to ensure that he/she discusses the results with you and agrees a suitable course of action. This might involve a second test within the year, and we will arrange this for you at no further charge.
5. For female clients:
 - a. if there are any cell abnormalities identified on your smear we will immediately instruct the laboratory to test the smear for presence of the Human Papilloma Virus (HPV) and we will inform your GP of the results. This will provide valuable additional information in relation to any treatment that might be needed.
 - b. In a small number of cases it is impossible for the Laboratory to obtain a definitive reading from the smear. In these cases the report is marked as "inadequate". This does not indicate any problem, but a second smear will be needed, and this is normally arranged about three months after the initial smear. There will be no charge to you for this second smear.
 - c. Provided that you have not previously been diagnosed as having cervical cancer, and that your initial ProScreen smear is clear, you will receive up to £5,000 towards the cost of any necessary private consultations and treatment of any precancerous abnormalities that may be discovered as a result of taking your smear test.
 - d. The cover will continue as long as you take an annual smear through ProScreen.
 - e. The cover ceases 13 months from the date of your previous smear through ProScreen
6. For male clients:
 - a. All samples will automatically be tested for both PSA and free PSA.
 - b. Clients should be aware that in a small percentage of cases prostate cancer does not cause a raised PSA and that the actual presence of prostate cancer cannot be determined without further invasive investigations. Your doctor will advise you if such investigations are indicated.
7. We guarantee confidentiality, and all records are securely maintained in line with the provisions of the Data Protection Act.
8. All fees are fixed for a period of three years from the date of this agreement.

In order to provide you with this service we need you to:

1. Sign an annual or monthly standing order for your membership fee
2. Provide us with the name and address of your GP
3. Follow the guidance provided to maximise the chances of obtaining a satisfactory sample and producing an accurate and reliable result.
4. Enable us to contact you during normal working hours for appointment making purposes
5. Keep appointments that have been made in your name unless you have contacted us in good time to cancel the appointment. If you fail to keep the appointment without letting us know 48 hours in advance, you will be liable to a charge of up to £30.00.
6. Advise us of any change in address, employment, or other relevant personal circumstances
